Complementary Services And Products

Consistel offers a host of other services and products that complement in-building turnkey wireless solutions. These services and products are synergistic with the work that Consistel already performs for our clients and are extensions of our core competencies. These offers include:

- Site Acquisition Services
- Site Audit
- Site Maintenance
- Network Upgrades
- Customized Technical Solutions

Our Track Record

Consistel has been at the forefront of in-building turnkey solutions in the South Asia region for the past 8 years. As our client base includes most major operators, we have developed a keen understanding of an operator's needs and focus.

Consistel has designed and implemented over 2000 buildings across Asia. Consistel can provide rapid implementation combined with high quality workmanship. Each Consistel team can implement at least 30 buildings per month for a single operator. Almost all the solutions are turnkey from the point of award of the building. The scope of work includes site acquisition, site survey, design, procurement, installation, commissioning, optimization and testing.
